Darn, their check must have been a bigger amount!

Is it possible to meet in ICC's classroom?

Doug & Ray, thanks! Quick question though and I apologize if this was captured in an earlier email, if we are meeting on November 8 aren't we meeting at the regular location, St. James Church School?

Subject: Meeting Planning

Hi all

I had a good chat with Ray Basso this morning and I think we have a pretty clear path forward. timing makes sense to have our November meeting on the CPG proposal and FFS, and an early December meeting in Lyndhurst on the 90% design.

November 8 meeting

--we can look for a room on the 8th or Ray is also available on the 7th, 6th is election day so that is not a good idea
--Ray is available to talk about the CPG proposal in context of how it fits in with the overall FFS and proposed plan (in that it really does not, it is too little too late for EPA but the CPA will have the opportunity to make extensive comments in the spring along with everyone else)
--Ray offered to have a conference call ahead of time so that the CAG has all the information it needs to consider what the CPG is offering

December meeting

--90% design comes out in early November, so early December is good timing for a meeting
--12/13 would be the 2nd Thursday but we might want to consider 12/6 for our meeting
--we need to look for space in Lyndhurst

Odor issue

--the meeting with the State was postponed until 12/4
--notes show that odor complaints dated back to January 2011, which is before the phase 1 project even started, and noted that odors were strongest at night and weekends! so EPA is even more frustrated with this whole thing

lets coordinate to nail down the November date so we can get everyone notified

thanks
Doug
